

**GOVERNMENT OF INDIA  
MINISTRY OF MINES**

**LOK SABHA  
UNSTARRED QUESTION NO. 1503  
TO BE ANSWERED ON 9<sup>TH</sup> MARCH, 2017**

**Registered and Illegal Mines**

**1503. SHRI ARVIND SAWANT**

Will the Minister of **MINES** be pleased to state:

- (a) the number of registered working mines in the country, State/UT-wise;
- (b) whether the Government has fixed/proposes to fix any target for production from these mines, if so, the details thereof along with the achievements made by these mines during each of the last three years and the current year;
- (c) whether the Government has achieved the target set for these mines, if not, the reasons therefor and the steps taken to achieve the same;
- (d) whether certain other mines are also working illegally in addition to the registered mines in the country, if so, the details thereof, State/UT-wise; and
- (e) the action taken by the Government against these illegal working mines?

**ANSWER**

**THE MINISTER OF STATE (INDEPENDENT CHARGE) FOR POWER, COAL, NEW & RENEWABLE ENERGY AND MINES (SHRI PIYUSH GOYAL)**

(a): The details of working mines registered with IBM as on 28.02.2017 in the country, state-wise are given at Annexure-I.

(b): The Government does not fix or propose to fix lease-wise target for production. The mining lessees themselves submit proposals for production through the mining plans/schemes of mining etc. The Supreme Court has issued orders capping the production of iron ore in the states of Goa and Karnataka. For the state of Goa, 20 million tonne cap has been fixed for the year 2015-16 against which total production from all mines has been reported as 7.155 million tonne. For the state of Karnataka, cap of 25 million tonne for mines falling under Bellary Hospet area and 5 million tonne for mines falling under Chitradurga and Tumkur districts has been fixed against which all the mines have reported production of 17.79 million tonne during 2013-14, 21.10 million tonne during 2014-15 and 23.12 million tonne during 2015-16.

(c): The production limit is a derivative of the limits prescribed in the approved mining plan, the Environment Clearance and the Mine Development and Production Agreement as the case may be. The Production limits vary from mine to mine; and these details are not maintained centrally.

(d) & (e): The details of instances of illegal mining reported in various parts of the country submitted by the state governments to IBM and the action taken by State Governments during 2014-15 to 2015-16 are given at Annexure-II and Annexure-III.
